### What is Pancreatitis?

Pancreatitis is an inflammation of the pancreas. The pancreas is a small organ located behind the stomach that produces enzymes that help digest food and hormones that help regulate blood sugar levels. When the pancreas is inflamed, it can stop producing these enzymes and hormones, which can lead to a number of serious health problems.

## Symptoms of Pancreatitis in Dogs

The symptoms of pancreatitis in dogs can vary depending on the severity of the condition. Some of the most common symptoms include:
